CARRY TREATY FIGHT TO CON- VENTION FLOOR

THE OPPOSING FACTIONS CANNOT
AGREE ON PLANK ON TREATY
AND LEAGUE OF NATIONS

PLATFORM ALL AGREED TO BY
COMMITTEE EXCEPT TREATY
AND MEXICAN QUESTION

L. C. MARTIN
(United Press Staff Correspondent)

Chicago, June 10—The bitter controversy over the treaty plank appears almost certain to be carried to the floor of the convention today.

All night efforts to avert a final clash proved futile. While the convention waited for the platform to be reported, the resolutions committee met at an early hour today to receive from the sub committee a partial report which covers everything except the treaty and the Mexican plank. At the same time in the subcommittee the first formal consideration of these questions was to begin.

The negotiations which went on until early today between those demanding a plank for ratification of the treaty and the league covenant with reservations, and those who threatened to bolt if ratification is mentioned, seemed to have served only to increase the rancor.

The anti leaguers of the Borah-Johnson group declared with assurance that the subcommittee would sustain them by reporting planks containing these provisions:

"Condemning in strong terms both the treaty and the covenant in the form submitted by President Wilson. Commendation of the republican senators for refusing to ratify in that form.

Approval of the principles of international courts to settle international disputes.

A plank that the party will uphold the principles in foreign relations enunciated by Washington and Monroe."

"Though they expect to be upheld by the sub committee, the bitter ends feel equally certain that the full committee will go against them, thus sending all questions to the convention floor.

By common consent the treaty question in the sub committee was left until the last. Senator Smoot of Utah, acting as peacemaker, tried to bring opponents together. Smoot's efforts were futile. He finally carried the matter to Lodge. Senators Smoot, Borah, McCormick and Watson conferred with Lodge. Lodge urged the necessity for avoiding a split in the convention, but assured Borah and McCormick he stood with them. In this Lodge opposed Murray Crane, of Massachusetts, who with the assistance of Senator Lenroot of Wisconsin, will lead the fight for the affirmative, declaring for ratification with safeguarding reservations.

Bitter ends were elated at Lodge's support.

Once it appeared Borah and McCormick were going to bolt the sub committee meeting when they left the room hurried and disheveled. Smoot instantly followed, also agitated. His coat was off, his face damp with perspiration and his hair badly rumpled. He led Borah and McCormick down the corridor and read them proposed compromise drafts.

This condemns the treaty in existing form and approves "the action of the republican senators in refusing to ratify it without safeguarding reservations." Upon hearing that provision McCormick "flew up."

"No sir," he shouted, striding away from Smoot, his face flushed with anger. McCormick stomped back into the meeting room crying, "no sir, never," at every step and waving his arms excitedly.

Smoot then appealed to Borah to accept but he refused.

"I do not approve of their action in refusing to ratify because they did not get reservations," said Borah. The plank as drawn, he declared, was simple, and drafted, he said to catch the "bitter ends. Borah told Smoot he would not stay longer in the meeting but Smoot implored him not to bolt.

Then the conference with Lodge was decided on.

Charges of bad faith and broken agreements were hurled at reservationists by bitter ends, and some of the compromisers. Senator Watson

LIEUT. COL. R. W. MEANS

In Colorado the returned soldiers have gone into politics with a platform of their own. They have organized the Ex-Service Men's Political league and announced its support of Lieut. Col. Rice W. Means for the United States senate.

declared the present situation was a result of repudiation by reservation senators over an agreement made to accept a certain treaty plank now known as the Washington plank, according to Watson. Senators Lenroot, Kellogg, Borah and others had previously accepted his plank.

Murray Crane was held responsible by the "peace maker" for causing the trouble.

A row over the labor plank as drafted by the sub committee also was in prospect today.

Senator Watson, chairman of both the full and sub committee, said every effort would be made to make the report to the convention this afternoon.

Sub Committee Agrees on Treaty Plank

Chicago, June 10—The sub committee of the resolutions committee unanimously adopted the treaty plank for the republican national platform today shortly before noon. This means that no minority report will be presented to the full committee.

The agreement was reached at a conference of Ogden Mills, Senator William Borah and Senator Reed Smoot.

There is nothing in the treaty plank even intimating that the republican party favors ratification in any form, absolute silence being maintained on that subject.

The planks as agreed upon provide:

1. Condemnation of the treaty and league of nations in their present form.

2. Commendation of the senators who voted to defeat the pact and covenant as presented by President Wilson.

3. A statement in effect that we agree with American ideals and policies of Washington and Monroe.

4. A statement favoring the principles of an international court to settle disputes between nations.

NATIONAL CONVEN- TION ADJOURNED TO 4 P. M. TODAY

TO GIVE RESOLUTIONS COMMITTEE
TIME TO CONSIDER THE
PLATFORM AGREED TO
BY SUB COMMITTEE

SESSION ONLY LASTED 13 MIN-
UTES THIS MORNING—THE
AUDIENCE HATED TO
LEAVE HALL

HUGH BAILLIE
(United Press Staff Correspondent)

Coliseum, Chicago, June 10—The republican convention met for thirteen minutes today then recessed to give the resolutions committee time to go over the platform draft prepared by the sub committee and agree on it.

Senator McCormick, representing the resolutions committee, appeared beside Chairman Lodge on the rostrum and delivered the message from the committee saying the sub committee had reached an agreement including a league of nations plank. He asked for adjournment until 4 p. m.

There was a loud objection to such a plan.

Addressing the crowd McCormick said: "the members of the whole committee are considering the draft line by line and will have an opportunity to offer amendments."

The spectators were very reluctant to leave the building. Evidently hundreds of those in the galleries considered they had not had their money's worth and remained standing making no move to depart. Even delegates were in no hurry to go. Five minutes after adjournment had been taken there was no move toward exit. As the hand neared the end of "The Stars and Stripes Forever" however the people began moving toward the doors.

The movie man took advantage of the situation and took many feet of film.

Senator McCormick said the committee on resolutions commissioned him to make a report to the convention and to submit to the convention a resolution.

"I have to report that the sub committee unanimously has agreed on a text of a platform including the paragraph dealing with the treaty of peace," he said.

Lodge put the question and there was an overwhelming yell of no, but the no came from the audience. "The chair is in doubt and asks for a standing vote." He declared the ayes have it and the convention was recessed until 4 p. m.

California, Ohio and parts of Illinois and several western delegations opposed the request of the resolution committee for a recess. The "old guard" stronghold in Pennsylvania and New York and other easterlies stood solidly for it.

May Proceed with Nominating Speeches Late Today

The Coliseum, Chicago, June 10—

PRINCESS OF THURN

The princess of Thurn and Taxi.

The republican convention late today may proceed with nominating speeches, Secretary Miller of the committee told Speaker Gillett and a number of other delegates shortly before today's session opened.

However, it was explained by the parliamentarian, that a two-thirds vote was necessary to suspend rules and go ahead with the nominating speeches.

Miller assured Gillett and other delegates it would be done however, He also said the sub committee of the resolutions committee had reached an agreement on the platform, but that it would take some time to get the report in shape. A few minutes before Miller gave this information to Gillett, officials of the national committee said no attempt would be made to start nominating speeches unless all the committees had agreed to such a step.

STORM'S TOLL IS SEVEN DEAD

A LIST OF FORTY MORE INJURED
IS REPORTED AS COMMU-
CATION IS RESTORED

(By United Press)

Breckenridge, Minn., June 10—Additional casualties in Tuesday night's tornado were reported today as communication with the stricken district was reestablished.

Seven deaths had been reported early today. Forty-four names had been added to the list of injured in the vicinity of Breckenridge and Foxhome.

DROP NORWEGIAN FROM CHURCH NAME

TRIENNIAL CONVENTION OF NOR-
WEGIAN LUTHERAN CHURCH
IS CONSIDERING SUCH
ACTION

(By United Press)

Minneapolis June 10—Whether Norwegian shall be dropped from the name of the Norwegian Lutheran church of America is expected to be decided late today, a delegate attending the triennial convention here said.

The movement to drop the prefix from the name of the church was sponsored by Rev. C. J. Eastwood of southeastern Minnesota district. He said there would be strong opposition to the movement, but declared the church is no longer entirely Norwegian. About three thousand delegates from all parts of the United States are attending.

VANITE WINS FIFTH RACE OVER RESOLUTE

(By United Press)

New York, June 10—The Vanite won the fifth of the trial races with the Resolute here today by a margin of one minute and thirty-four seconds. The yachts are contesting to determine which will represent America in the international yacht races.

OFFERS SUBSTITUTE FOR SUB-COMMITTEE REPORT ON TREATY

L. C. MARTIN
(United Press Staff Correspondent)

Chicago, June 10—Objecting to the sub committee's treaty plank, National Committeeman Grosse, of Wisconsin prepared the following plank as a substitute for presentation to the full committee:

"We are opposed to the league of nations as a standing menace to peace and denounce the treaty as a violation of the pledges made to the world, and a betrayal of the honor of the nation. It would make us a party to the enslavement of Egypt and India, the rape of China and the ruthless oppression of Ireland. We would favor a league for peace composed of all the nations of the world providing they were pledged by a binding covenant with proper guarantee to abolish compulsory military service and provide further that the several nations mutually bind themselves to speedy disarmament, reduce land and naval forces to the strict requirements of purely police and patrol service."

GOVERNMENT SCORES AGAINST DEMPSEY

(United Press)

San Francisco, June 10—The government scored against Jack Dempsey in the draft evasion trial of the heavy-weight champion today when Federal Judge Dooling ruled that Maxine Dempsey, former wife of Jack Dempsey, might testify against Dempsey on matters not regarded as confidential.

Maxine was then called to the witness stand.

Europe's Plague Spot

Around the 14-mile-long girdle of massive walls which Constantinople raised around its capital, the breakers of war seldom ceased to hurl themselves. Twenty-six times the city was besieged by Persians and Avars, by Russians, Latins and Turks. Six times the Saracens flung their hosts against it; and eight times it fell into the enemy's hands, and was laid waste with fire and sword and pillage.

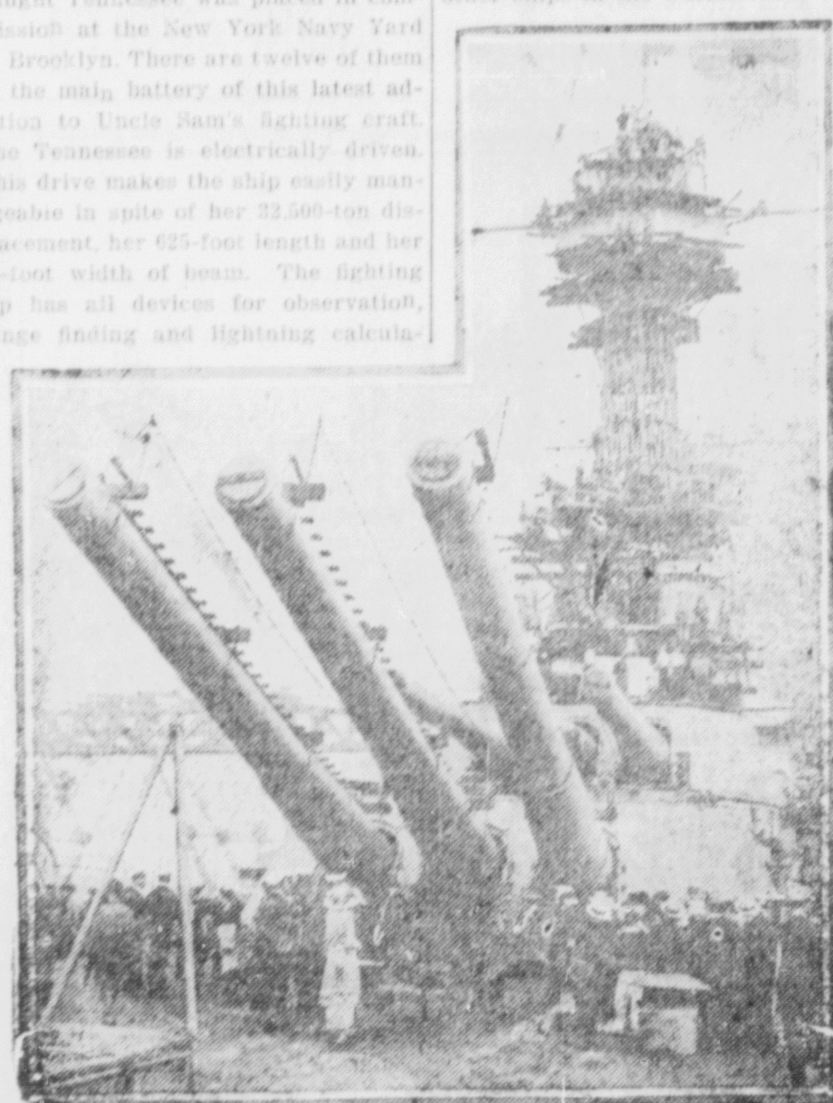

Three times the Turks laid siege to it; and the third time, in 1453, Mohammed II made it his own after a fierce and stubborn resistance. From that day to our own Constantinople has remained in Turkish hands—the plague-spot of Europe.

Gone Are Caravans of Gypsies

The gypsy caravans drawn by horses, which were once a feature of their picturesque encampments, are gone, for the automobile has displaced the animals. These people travel around in high-powered cars in which have been incorporated some of the resplendent features of the old-time caravan.

VISITORS VIEWING BIG 14-INCH GUNS WHEN THE BATTLESHIP TENNESSEE WAS COMMISSIONED

This is how the bristling 14-inch guns looked when the super-dreadnaught Tennessee was placed in commission at the New York Navy Yard in Brooklyn. There are twelve of them in the main battery of this latest addition to Uncle Sam's fighting craft. The Tennessee is electrically driven. This drive makes the ship easily manageable in spite of her 32,500-ton displacement, her 625-foot length and her 35-foot width of beam. The fighting top has all devices for observation, range finding and lightning calculation. This feature, in its perfection, distinguishes the Tennessee from all other ships in the world.

JOSEPH I. FRANCE

Senator Joseph I. France of Maryland, has entered the race for the Republican presidential nomination. He favors a referendum on the liberal enforcement of the prohibition amendment.

PERSHING LOOMS AS DARK HORSE

FOR THE DEMOCRATIC NOMI-
NATION FOR PRESIDENT AT SAN
FRANCISCO CONVENTION

(By United Press)

New York, June 10—A dark horse boom for General John J. Pershing for the democratic presidential nomination was set in motion here today.

It was announced that Edward E. Goitra, national democratic committeeman from Missouri is in Washington today to invite General Pershing to attend the San Francisco convention as a guest of a big Missouri delegation on a special train. Pershing is a native of Missouri, and a man behind this movement claims he is eligible for nomination as a democrat, although he has no definite party alignment.

The Goitra party has arranged to invite prominent native sons of Missouri, and it is said among these Secretary of State Cully has already accepted. Augustus Thomas playwright and orator of Missouri, is booked. It is said, to present General Pershing's name to the San Francisco convention.

WILSON HAS UNTIL JUNE 15 TO SIGN BILLS

Washington, June 10—Attorney General Palmer is preparing an official ruling that President Wilson has the right until June 15 to sign measures passed at the recent session of congress.

BALLOTING WILL PROBABLY BEGIN LATE TOMORROW

EVERY EFFORT WILL BE MADE
TO FORCE FINAL ACTION ON
PLATFORM TODAY

(By United Press)

Chicago, June 10—Every effort will be made by those directing the procedure of the republican convention to force final action of the platform tonight. Will Hays, chairman of the national committee, said this afternoon. A long night session is planned in case a big fight develops against the platform as outlined by the resolutions committee Hays indicated, but added that the unanimous report on the planks ought to make the meeting short.

The first ballot, he said, probably will come late tomorrow afternoon.

MINNEAPOLIS STORES DAMAGED BY FIRE

(United Press)

Minneapolis, June 10—Three persons were injured, more than twenty overcome by smoke and eight stores damaged in a fire late yesterday on Nicollet avenue.

The fire started in Hubert's ladies outfitting shop from a box of tissue paper and spread. Henry Toyne, 61, elevator operator, heroically rescued more than two dozen girls from the upper floors and then collapsed.

AMERICAN WINS BRITISH AMATEUR GOLF TOURNAMENT

Muirfield Scotland, June 10—Robert Gardner, of Chicago, today won the sixth round of the amateur golf tournament of Great Britain by defeating Gordon Lookhardt of Prestwick, two up. Gardner is the only American left in the play.

BIG GUNS MUST BE MOBILE

Otherwise in Future Wars They Will
Be Quickly Wiped Out if "Spot-
ted" From Above.

While the war was in progress new military inventions and improvements were for obvious reasons kept secret in America. Now, however, they are beginning to leak out.

For example, there is a new 14-inch gun, which is called "pride of the army." All big guns in future will be made mobile (on rails or drawn by gasoline tractors), because otherwise they would invite their own destruction. With the help of "spotting" airplanes they might be quickly wiped out.

The guns which now defend American seacoast forts are stationary, and the big ones of no larger caliber than 12 inches. They are to be replaced by 14-inch rifles on mobile mounts, and it is manifest the plans of the fortifications will have to be altered.

Newest American battleships carry 14-inch guns, which have been deemed the most effective weapons of their type in the world. Some of them did duty on land in France toward the end of the war. But this new rifle (a product of army ordnance experts' best ingenuity) is superior in several respects. It will throw a shell 35 miles.

VOLCANOE AWAKE TO LIFE

Mount Katmai, in Alaska, Especially,
Shows Signs of Preparation for
Destructive Outburst.

Affording an awe-compelling spectacle of nature in a sullen mood and awakening memories of the ghastly details of the eruption of eight years ago, Mount Katmai, most powerful and restless of North American volcanoes, is again in violent activity, according to Capt. Charles A. Glascock and Purser Gary Bach of the steamer Admiral Watson, which reached port recently from southwestern Alaska, says the Seattle Post-Intelligencer.

A sable pall of smoke from the funnel of the belching crater broods over the northern sky for a radius of 40 or 50 miles by day, while fretful tongues of flame can be seen by vessels a score of miles at sea at night, according to the Seattle mariners.

Knight's peak, a neighboring volcano, has also been stirred to spectacular efforts by the outburst of its more deadly companion, and wreaths of smoke hang over numerous peaks of the rugged Alaska peninsula.

A slight earthquake shock was experienced at Kodiak Island the night of April 8, a day before the arrival of the Admiral Watson. Two days later those on the Admiral Watson had a rare view of the volcano.

CHAIRMAN OF REPUBLICAN AND DEMOCRATIC NATIONAL COMMITTEES MEETING IN CHICAGO

Will H. Hays (at left) and Homer S. Cummings

"My friend, the enemy," said Homer S. Cummings, chairman of the National Democratic Committee, when he greeted Will H. Hays, chairman of the Republican National Committee recently at Chicago. Hays was busy there making arrangements for the Republican National Convention when Cummings stopped off on his way to San Francisco to prepare for the Democratic National Convention.

Long Life Signs.

It is said to be possible to distinguish a long-lived person from one who will not last so long at sight.

Are you going to live long?

First, according to well-known authority, says London Answers, the primary conditions of longevity are that the lungs, heart, digestive organs and brains should all be long. If such be the case the trunk will be long and the limbs comparatively short.

A good indication of longevity, it is said, is a long hand with short fingers, which are not stumpy at the ends. Blue, hazel or brown eyes, too, are said to denote a long life. Another sign—large, open and free nostrils which denote large lungs!

If you are a long liver, you will appear tall when seated and short in standing. Your brain, we are also told, will be deeply seated, as portrayed by the office of the ear being low.

Women seem to outlive men, for it has been recorded that from birth to ten years of age male death rate has exceeded the female.

A Native Flashlight.

The native's view of the English occupation in Egypt seldom gets into print. In Mr. Wilfrid Blunt's recent book, "Gordon at Khartoum," there is a refreshing if somewhat irreverent exception that, however, dates back to the days before the great English soldier's fate was sealed by the delay of the relief expedition at Metemma.

Gordon approached all mundane matters from the point of view of an old Hebrew prophet, going to the Scriptures to find all necessary direction both for his temporal and for his eternal needs. This profound mysticism had another side, according to Nubar, the native critics referred to above.

"Yes," said Nubar, "General Gordon reads the Bible all the morning—and then he gets up and hangs a man."

Deadly Enemy of Fruit Trees.

A familiar pest is the tent caterpillar, which is very destructive to all fruit trees. The reddish brown moth lays its eggs in the form of incomplete balls on the smaller branches, each

SULPHUR CLEARS UP ROUGH OR RED SKIN

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It never fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Mentho-Sulphur from any good druggist and use it like cold cream.

6TH DISTRICT WOMEN END MEET AT CROSBY

The fifteenth annual meeting of the Sixth District Federation of Women's clubs, just closed at Crosby was one of the most successful in many ways of any yet held.

The meetings were held at the armory on the lake shore and were all very well attended. On Thursday, the opening afternoon, the address of welcome was given by Mrs. George Butler of Crosby and was responded to by Mrs. W. V. Puntney of Aitkin. An informal tea followed the opening program and the delegates were guests of the Study club of Crosby at a 6 o'clock dinner served by the Methodist Ladies aid.

Thursday evening, Miss Ruth Mitchell of St. Cloud, chairman of the League of Women Voters of the Sixth district, gave a logical address on "The League," explaining many points which perhaps had not been quite clear concerning the league and its workings.

Mrs. C. L. Atwood of St. Cloud spoke on "Our Public Employment Problem," in which she advocated the substitution of the merit system for the so-called spoils system with which we have long been familiar.

The music furnished at the Thursday evening meeting was an especially pleased feature. Mrs. W. A. M. Johnstone's quartette of Brainerd rendered several splendid selections and Mrs. Percy Gough of Deerwood sang a group of solos.

Friday morning was devoted to the business of the federation. Reports of officers, reports of clubs and election of officers were disposed of at this time. The following officers re-elected for a term of two years: Mrs. Geo. R. Christie of Long Prairie, president and Miss Marion Lewis, also of Long Prairie, corresponding secretary. Mrs. Robt. Hinkle of Crosby was elected recording secretary to fill the unexpired term of Mrs. James Reed, who has moved from Blackduck to Minneapolis.

Mrs. Jenny Lind Blanchard of this city gave a "Library Survey of the District" at the close of this session.

The program of Friday afternoon opened with community singing led by Madame Pearl of Crosby. This was followed by an address full of food for thought on "Home and School" by Mrs. L. D. Brown, (Miss Borgan executive secretary of the women's division of the high cost of living, gave a comprehensive talk on the work that is being done by women to help reduce prices. She urged the women to refrain from buying anything except necessities until the supply could catch up with the demand, as only in that event could prices come down.

A ride to the mines, which are the show places of Crosby and a Mothers' club tea at a beautiful lake home concluded the afternoon's program.

On the last evening of the meeting, a practical talk on "Thoughts on Making the Most of Your Life," was given by Mrs. Anthony French Merrill of Chicago, who urged every one present to take at least fifteen minutes every day for the improvement of his mind.

Dr. Marion Shutter of Minneapolis gave an address in which he expounded the dangers of socialism, with which subject the doctor is most familiar.

Musical numbers on the Friday programs were given by Crosby people.

A Very Gentle Hint.

Now, one uncle of the children was generous and the other was close, indeed. Uncle Number One, however, was not satisfied with his own generosity. He wished Number Two to know and feel the joy of giving, particularly to his own nephews and nieces. He wondered and wondered as to the best way to show him that he should be more generous. Then one day came his opportunity.

He was driving by Uncle Number Two's farm and noticed all his fine chickens. Now, the mother of the wee children did not have chickens. So Uncle Number One, of generous habits, stopped his machine, walked up to the house and accosted Uncle Number Two, of parsimonious fame. "I just saw your chickens," he remarked pleasantly, "and I wondered if you wouldn't sell me some eggs for our little nephews and nieces to eat."

Clearing House for Brains.

The demand for technical men is about to be taken care of by a proposed clearing house for brains which will maintain a central headquarters and will be composed of representatives of all the technical colleges in the country and at these headquarters a directory and filing system of the demands of the country for professional assistance of this character will be kept. Such a system will enable the industries to secure men that are wanted, and will offer facilities for graduates and other to secure places for which they are qualified with little loss of time or energy.

Leading Women at Chicago Convention in Urging Action on Suffrage Amendment

Miss Alice Paul

Members of the National Women's party are in Chicago to be present during the Republican National Convention. The Suffragists are there expressing their opinion of the Republicans whom they blame for failure to get the legislatures of Republican Delaware, Connecticut and Vermont to complete the ratification of the Federal Suffrage Amendment. This photograph of Miss Alice Paul, chairman of the National Woman's Party, was taken in front of the Washington headquarters just before leaving for Chicago.

SOCIETY HORSE SHOW

And Circus at the Carnival of the Frisco Exposition Shows Week of June 14

In order that the Frisco Exposition Shows be complete as a mirror that reflects everything in the field of amusement, Chas. Martin, early in his career decided that his shows should have as features, an old time circus like grandfather knew. To fill this order he reached out to find capable circus men. After gathering his staff around, he told them that the circus was not his branch of the show business, he directed that the head of the circus department build him a circus, about the only thing connected with the circus that Mr. Martin did understand was the proper method of catering to the public for amusement.

His aides set out and installed in usual circus time a complete two ring circus, presenting acts that are characteristic of big shows traveling independently on their own merits, his group of trained horses, ponies, dogs, monkeys, baboons, and kangaroos are said to be of the best in the world. Among the many feature acts is Teddy, the horse with a human brain, famous the world over as the fire fighting horse. Teddy opens the cash register, makes change, counts, adds and does a wonderful fire act where he saves the baby from the burning building. Then there is Starlight the ten thousand dollar challenge shimie dancing horse, also Crash in his leap for life over an automobile, and the beautiful trained ponies, those marvelous trained dogs and Tom the famous boxing kangaroo and the complete trained monkey and baboon circus, this is truly a remarkable trained animal circus and worthy of any one's time and money.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.

P. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists, 75c.

IT PAYS TO ADVERTISE—TRY IT

IN NEW TAFFETAS

Individual Styles Are the Rule
This Season.

Frocks Constructed on Lines to Suit
One's Figure, Resulting in Greater
Satisfaction.

With captivating crispness do the newest taffetas swish their way to fame, and indeed one needs but little inspiration to create lovely frocks, so simple are the modes and so lovely the materials. Individual styles with lines to suit one's figure are the rule this season.

One frock that was especially designed for the girl with rather plump proportions was really a masterpiece for clever lines. Navy blue with smart touches of brick red and overdrapes of georgette crepe form a pleasing alliance, but it was the model selected that was so appropriate.

This stout figure frock was a long-waisted affair, semi-fitted to the hips, and there completed by a scant two-piece skirt, also of the taffeta. And there was a bit of a frill with a dash of brick red trimming at the square neck.

Over the skirt was a full tulle of the embroidered crepe looped under at the bottom, zoned effect, and finished with an elastic band. As a final note she added a narrow sash to the taffeta and tied it back and allowed the ends to float quite gayly at the bottom of the skirt.

The slowness of the jaunty flite would be improved by a smartly draped frock of taupe taffeta and French blue ribbon. The front of the

The skirt, hip design, and sleeves of this model all have peculiarities which make the dress distinctive. It is made of dark green taffeta with lighter bindings.

bodice crosses itself at the breast with religious fervor, but is quite frivolous when it comes to the skirt. It begins demurely with an underskirt of

narrow proportions, not too long, and then hangs a looped tulle over it.

TURBAN TRIMMED WITH TULLE

Headgear of Gray Hemp Embellished
With Jet Band Forming Veil-
like Trimming.

Lewis, of Paris, notes a fashion writer, makes a fascinating little turban, from which tulle floats. It is of gray hemp trimmed with a jet embroidered band of black tulle, forming a veil-like trimming across the front and sides and continuing across the back where it is tied in a wide Alsatian bow.

Another close-fitting hat is of shiny white straw, with a brim turned up in the back and front and extending into Continental points at either side. Just above the points are bright pink roses. Over the crown of the hat is draped a large square veil of black net with an applique of lace. The drapery is gathered to the left side to be swathed about the neck and chin of the wearer.

Not all of the lace trimmed hats are small. One model, which is very large and turned up sharply in the front, has a flowing veil held to the crown with a narrow ribbon.

Some Colors You See.

Egyptian designs and Egyptian colors are leaders for spring, and the dressmakers have gone back to real Egyptian prints and paintings for their inspiration, and the colors that seem to take precedence are chandron, which is copper color, a peculiar opaque blue, citron color and green. Then there is a second blue that suggests the turquoise. The green is sometimes confused with jade, but as a matter of fact it is lighter and possibly yellower than the color actually seen in Chinese jade.

Tulle Is Popular.

Much tulle is the order of the minute and this is headed and embroidered in the most intricate fashion, even though the heaviness of the handwork is applied to almost invisible fabric.

Thrifty? Yes.

The other day an Indianapolis lawyer took one of his women clients out to lunch. He, being discreet, decided to say nothing about the event to his wife. But the tattling friend who always learns of such affairs told wily instead, and that evening he was duly scolded for this misdemeanor.

"But you sometimes go out to lunch with men who are our friends," protested her husband, "and I don't object. Now, what is the difference between your coming and my going in this way?"

"Why, the difference is in the bill," smiled the wife. "One way you save it and the other you pay it."

Needed Her Help.

Will R— is a high school pupil who knew very little of children until his married sister and her three-year-old son came home to visit the other day. Now the variety of the three-year-old's language amazed his uncle. He said, "Bow-wow" for dog, "bye-bye" for automobile, "mew-mew" for cat, and even "la-la" for the virolo.

The other evening Will came into the house. "Say, sis," he called upstairs to his sister, "you'll have to give me some help. I want to ask this youngster to go with me to a show and I don't know what kind of a noise to make for moving pictures."

Comes Early in Spring.
Among the first birds to arrive in spring in the northern part of the United States is the bluebird, says the American Forestry Magazine of Washington.

Genuine Polish.

Some people are rusty; their harsh, untidy manners cut out whatever is good in their own character. Some people are gilt; a very brilliant exterior they present, but the first brush and hard using rubs off the gilding and reveals of bare metal beneath. A third class is polished. The polish indeed is on the multifarious crosses of human life, the more it is rubbed the brighter it grows.

Become Slender

Reduce your weight 10 to 25 lbs. or more. You can do it safely by using KOLIN, following easy directions. Sold by H. P. Dunn, G. E. Lammon Johnson's Pharmacy. All New Drugs Everywhere sell KOLIN. KOLIN, booklet mailed free by Kolin Co., 25-261 Station 1, New York.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

BRAINERD'S PUBLIC SPIRIT

A glance at the bank statements reveals the fact that there is approximately \$3,000,000, on deposit in the banks in Brainerd. A large portion of this is drawing but 3 and 4 per cent interest and the balance is subject to check without interest.

Brainerd has a needed street improvement which is in danger of failure because of the lack of the sale of \$87,400 of bonds. All autoists of the city use these streets frequently. All tourists receive their impression of the city from these streets. Merchants trucks are over them frequently and they alone could afford to buy a large portion of the bonds from what they would save on their delivery equipment. The city will pay a little better than 5 1/2% on these bonds. They are exempt from taxation. Municipal bonds are considered as gilt edge investments.

With these facts will the citizens of Brainerd who, as shown by the bank statements, have the money to invest, permit our city to proceed or must the improvement be held up?

This is one of the tests of a healthy public spirit. The banks will take liberally of the bonds. Mr. C. H. Paine has shown the citizens how to proceed. The success of the project is now up to the individual citizen. Surely the plan will not fail when 1-35 of the deposits in our banks will see the project through.

See your banker; leave your subscription for your share and thus keep Brainerd marching forward.

TESTS FOR DRIVERS

As summer advances, the reports of automobile accidents increase in number. In order to reduce this toll all laws affecting the operation of automobiles should be carefully drawn and stringently enforced, but especially those governing the qualifications of drivers.

In one community where an appalling number of fatalities are reported, no license is required for driving a machine. The automobile club in that town has drawn up an ordinance providing that such license shall be required, a fee of \$2 being proposed to cover the expense of issuing. In order to secure a license the driver must have driven at least 500 miles or must submit to a test of his ability by competent judges. Even though he may have driven more than the required distance, he must still take the test if there is any reason to doubt his proficiency. No license will be granted to any person under 16 years of age, and no person suffering from a physical handicap such as loss of a leg, arm, or eye will be granted a license without the test. Licenses will be revoked, and driving forbidden under penalty, where carelessness is proved.

Traffic ordinances, signals, speed limits, one-way streets, school zones, all are good, and none should be neglected. But manifestly the first requisite for public safety is that no person shall be allowed to drive a car who is not qualified to do so, and to determine this some sort of test is necessary.

THE CROWN PRINCE

The News Tribune does not believe McAdoo had \$5,000,000 pledged to carry on his "invisible campaign" for the Democratic nomination as president. Nor do we believe any considerable fund has been used in his campaign, though even an "invisible" one requires a considerable expenditure.

If Mr. McAdoo had needed that much money, he could have gotten it. It would have been him that much more valuable to the movie people. But he did not need it. He had his machine ready made in over 700,000 paid employees of the government, who all have hiked for son-in-law.

Scratch a democratic officeholder and you find a McAdoo lieutenant. Who would they be for, if not for the heir apparent? The president has no

son and so his eldest daughter becomes his next in succession under the law of his forefathers. McAdoo has not been a candidate; he did not have to be. The successors of royalty never are candidates. It is just a case of divine right.

All he has had to do is sit tight and help father-in-law hold control of the San Francisco convention. We predict that Mr. Wilson will control that convention absolutely. This fact, with his personal relations not alone to son-in-law's chief supporters leads us to predict that McAdoo will be the nominee.

If he is, just remember we said so. If he isn't, forget it.—Duluth News-Tribune.

PICK UP THE GLASS

The storm of Tuesday night damaged many plate glass windows and the wreckage is scattered in the streets. This glass should be picked up by city or property owner.

Last night a tourist driving a heavy Packard cut his new Fisk tire on a street in the business section. A large piece of plate glass ruined a brand new tire.

In justice to Brainerd cars and visiting motorists, the city cannot neglect this crying evil of broken glass in streets.

BIGGER THAN ALL

Human Mind Is Real Wonder of the World.

Inanimate Things That Used to Be Classed as Marvels Are Trivial in Comparison, According to Boston Writer.

An up-to-date newspaper must have an encyclopedic editor "Uncle Dudley" writes in the Boston Globe. His job is to do what he can to quench the public thirst for odd scraps of miscellaneous information. He lives close by the reservoir, a library containing the records of the race. One day he files a deposition about John Eliot's translation of the Bible for the American Indians; the next morning he testifies that on September 7, 1892, at New Orleans, Jim Corbett took the wind out of John L. Sullivan's sails in 21 rounds. There is one stock question in particular which bobs up over and over again. What are the seven wonders of the world? For purposes of reference, the number of wonders always has been, is now and ever shall be, apparently exactly seven. The almanacs never show ten or a dozen. The problem of selection is staggering in these days when the wonders of the world actually total much nearer 7,000 than they do seven.

Nevertheless, it is interesting to compare the compiled lists of the seven wonders of the ancient, the medieval and the modern worlds. They are an index to the history of the human intellect. Any compilation suffices. These will do.

Seven wonders of the ancient world—Pyramids of Egypt, Pharos of Egypt, Hanging Gardens of Babylon, Temple of Diana at Ephesus, Statue of Jupiter by Phidias, mausoleum of Artemisia at Halicarnassus, Colossus of Rhodes.

Seven wonders of the middle ages—Coliseum of Rome, catacombs of Alexandria, great wall of China, Stonehenge, leaning tower of Pisa, porcelain tower of Nanjing, China; mosque of St. Sophia at Constantinople.

Seven wonders of the modern world—Woolworth building, Eiffel tower, etc.? No. Inanimate marvels are of the past. Here comes the lightning change. The third act is a hummer. The compiler of the wonders does not even attempt to cover the whole modern period. He tabulates from the nineteenth and twentieth centuries only. And he calls his last list the seven new wonders of the world. Here they are:

Wireless, telephone, airplane, radium, antiseptic and antitoxin, spectrum analysis, X-rays.

What next? The great wonder of all the ages is the human mind. Its evolution is the history of the world.

Degree of Tire Doctor.

One of the tire manufacturing concerns of Akron, O., has established a school of tire repairs and the institution is so popular that it has been found necessary to increase its capacity, which is about to be doubled. This institution has averaged 35 graduates a month since last August. Every graduate of the school receives a diploma, certifying that he has finished the regular course of instruction, consisting of lectures, textbook study and practical repair work. The student is first made thoroughly acquainted with the details of tire construction before he is actually trained in repair work. Repair stocks, fabrics of all descriptions, air bags, vulcanizing machines and methods, common sources of tire trouble, etc., are among the subjects taken up. The chief instructor and his assistants in the school are thoroughly experienced tire men from both factory and retail business standpoints.

The Law of Nations.

In the law of nations every nation is just so much interested as every citizen in the laws of his country.—Daniel Webster.

LIVES IN MEMORY

New Yorker Recalls Delightful Evening With Twain.

Satisfied That He Saw Great Humorist at His Best When He Sat by the Fireside and Smoked With Him.

It is only about forty years since I spent a most delightful evening with Mr. and Mrs. Clemens at their newly-built home in Hartford, yet the Sun and New York Herald refers to the house as "one of the oldest residences in New England from the point of construction," says the writer of a letter to that newspaper.

Undoubtedly your reporter wrote that it was "one of the oddest," and he was right. The types were guilty of a characteristic prank.

We sat in front of a goodly old-fashioned fireplace and smoked such tobacco as Mark liked—that is, he and I did—in the long-stemmed clay pipes they call churchwardens, while Mrs. Clemens looked on with smiling toleration, contributing the gracious charm of her presence to the entertainment he was giving to a casual guest who had scant claim to the hospitality he was enjoying. I had called as a stranger on professional business and had been received socially.

Clemens was at his best—and let me say that best was never bettered by anyone else. His monologue of narrative and epigrams was drawn out through a long evening, as I laughed and Mrs. Clemens smiled, and Mark busied himself cleaning, burning out and filling pipe after pipe—there were a dozen of them standing in the corners of the fireplace—and handing them to me or lighting one for himself as fast or even faster than they were needed. There were two of them alight all the time.

I wish I could remember what he said, but I can recall only one remark, and that was too trivial to repeat, though I laughed at it as heartily as I did at all the other nonsense. It was not what he said so much as the way he said it.

P. T. Barnum, the great showman, told me that he, too, kept on laughing all the time Mark Twain talked to him. "But my wife doesn't," he said. "Mrs. Barnum has not a very keen sense of humor and she is a little afraid of laughing at the wrong time, so she sometimes seems unappreciative when Mark is really funny even for him."

"She has found out for herself, though, a pretty good rule to go by," he continued. "You see, she and I frequently visit with Mr. and Mrs. Clemens, and I noticed after a while that she was always watching Mrs. Clemens, so I asked her why she did it, and she told me that it was because Mrs. Clemens did not always laugh as other people did when Mark spoke. 'But when she laughs,' said Mrs. Barnum, 'I know it must be really funny, so I laugh, too.'"

"I call that pretty shrewd," continued the old showman with one of his own hearty ha-has, "and I took to doing the same thing myself. It worked well, I must say, for I noticed after a while that Mrs. Clemens never laughed excepting at the very best of Mark's jokes. I suppose she must have got tired laughing all the time before that."

I knew the great man for a long time after that wonderful evening, but I never felt that I knew him any better.

Colossal German Theater.

One of the world's most colossal theaters, and by far the most bizarre, is the great auditorium recently opened in Berlin. The dreary exterior of the building is monstrous, but gives little promise of the surprise within. The curving walls of the foyer, says an illustrated article in Popular Mechanics Magazine for May, merge into a domed roof, supported by carved mahogany columns. The upper portion of each column is formed by many disks that radiate orange and blue light from concealed bulbs. The auditorium itself suggests the Greek opulent amphitheater. The 3,000 seats are ranged in horseshoe plan around an arena, or more properly, an orchestra.

Chess Expert Doomed.

Senior Capablanca has set up as remarkable a record as ever was made in any sport in his chess exhibitions in Great Britain and Ireland. His total score in 1,352 games is 1,253 wins, 71 draws, and 28 losses. His opponents have included all the best English players. He takes them on thirty or more at a time. To each move on the board the Cuban master devotes an average of nine seconds, his victims six minutes. Recalling the tragic history of the great chess experts of Morphy and others, one asks fearfully, when will Capablanca go insane?—New York Globe.

Made Vacation Profitable.

A unique vacation was that of Dr. William Goodwin, superintendent of the general hospital at Staten Island, who camped for one month in the maple orchard of Frank Taylor of Harwinton, Conn. He combined business with pleasure, worked nights as well as days and made seventy-six gallons of maple sirup.

Self-Evident.

Pneumatic—"I wasn't born with a silver spoon in my mouth." Wigwag—"No, I notice you eat with your knife."

ALSO—FOX WEEKLY NEWS

LYNCHING RECORD IS HUMILIATING

CONGRESS PAYS BIG SUMS TO OTHER GOVERNMENTS AND ADMITS HELPLESSNESS.

LAW DRAWN TO PREVENT EVIL

Would Compel the Community in Which the Crime is Committed to Pay \$10,000 Penalty for Each Person Killed.

By JAMES P. HORNADAY.

Washington.—The judiciary committee of the house of representatives in advocating the passage of anti-lynching legislation sets out facts and figures which show that the lynching record in the United States is a humiliating one. It is shown, for instance, that congress has appropriated and the government has paid to other governments \$702,499.39 to compensate the murder by lynching of aliens by American mobs, and that there are now pending with the department of state undjusted claims to a large amount for similar murders of Austrians, Greeks, Japanese and Italians. Every diplomatic letter sent by the state department to another nation with regard to these claims has stated that the federal government is impotent to protect strangers within the borders of the United States, and seeks to lay the blame on the state governments. Even such a letter admits the dereliction of congress in not enforcing the guarantees of the fourteenth amendment. This sum of \$702,499.39 was paid for less than 100 lives of foreigners taken by mobs.

The bill favorably reported seeks (1) to prevent lynching as far as possible; (2) to punish the crime of lynching; and (3) to compel the community in which the crime is committed to make such compensation as is possible. It is proposed to exact from the county in which a person is lynched a penalty of \$10,000, recoverable in an action to be brought by the district attorney in the name of the United States for the use of the dependent family, if any, and if there be no dependent family for the use of the United States.

Would Interest Tax Payers.

The judiciary committee believes that such a penalty would make it to the interest of every tax payer of a county to do his share toward preventing a lynching; and the committee says that as to foreigners lynched, it is certainly fairer that the county, whose non-enforcement of the laws was responsible for the lynching, should pay for it than that congress should be compelled to make compensation for a local wrong.

Statistics collected by the judiciary committee show the following lynchings by states from 1899 to 1919, inclusive: Georgia, 386; Mississippi, 373; Texas, 325; Louisiana, 313; Alabama, 276; Arkansas, 214; Tennessee, 196; Florida, 178; Kentucky, 160; South Carolina, 120; Oklahoma, 96; Missouri, 81; Virginia, 78; North Carolina, 53; Wyoming, 34; West Virginia, 29; California, 26; Illinois, 24; Kansas, 22; Montana, 22; Indiana, 19; Colorado, 18; Maryland, 17; Nebraska, 17; Washington, 16; New Mexico, 13; South Dakota, 13; Ohio, 12; Idaho, 11; Arizona, 8; Iowa, 8; Alaska, 4; Michigan, 4; Minnesota, 4; Nevada, 4; Oregon, 4; Pennsylvania, 4; Wisconsin, 4; New York, 3; North Dakota, 2; Delaware, 1; Maine, 1; New Jersey, 1.

Causes of Most Lynchings.

According to the committee, in a vast majority of the cases lynching is induced by local prejudice against the race, nationality or religion of the person lynched. Race riots have been a serious feature. In May and July, 1917, there were race riots in East St. Louis due to the objection of labor unions to the importation of negro laborers from the south. In the May riot one negro was killed and hundreds of negro laborers driven from the city. In the July riot 39 negroes and eight whites were killed and hundreds of negroes were wound-

ed and maimed. In August, 1917, there took place a riot at Houston, Tex., growing out of the friction between the city police and negro soldiers of the Twenty-Fourth infantry and two negro soldiers and 18 whites were killed. Of the soldiers court-martialed 18 were executed, 51 sentenced to life imprisonment and four to brief terms of imprisonment. In July, 1918, there was a race riot at Chester, Pa. A few days later in Philadelphia a riot broke out due to objection to a colored woman purchasing a home in a white locality, and three whites and one negro were killed and 60 or more persons injured. In 1919 mob clashes against negroes and clashes between the races were reported from 26 cities. In Washington six persons were killed.

Electrifying Belgian Railways.

The first experiment in the electrification of Belgian railways, a project which has been under discussion for some time, will be made on the important line from Brussels to Antwerp. Direct high tension current will be used, with the third-rail system, except in station and yards, where overhead transmission will be employed. It is probable that the first trips under the new system will not be made until the end of 1921.

Lawyers Once Denied Leadership.

Popular confidence in the lawyer has swung from one extreme to the other since early colonial times, according to Francis M. Mordick, in "The Lawyer's Place in American Life." Thus, in 1645, Virginia forbade lawyers to take fees. Massachusetts closed the lawyers membership in the "Great and General Court" of the province in 1623, and when the earl of Shaftesbury and John Locke formulated the fundamental constitution of the Carolinas they prohibited lawyers from practicing for fees of any sort. No lawyer of distinction appeared in the Carolinas while that constitution was in force.

SHOP PICNIC AT DETROIT JUNE 19

Two Full Trains of Nine Coaches Each to Carry Northern Pacific Shopmen and Families

J. F. ELKINS GENL. CHAIRMAN

Expected to Take Brainerd Band and Orchestra Along, Committees Making Arrangements

The annual picnic of Northern Pacific railway shopmen, and their families will be held at Detroit Saturday, June 19 and two full trains of nine coaches each have been promised the picnicers.

Col. J. F. Elkins has been named general chairman. The other committee men are G. L. Kroes secretary, P. M. Bislar treasurer, C. Bruhn finance, J. J. Roney printing, John Mankowsky music and dance, Roland Jenkins sports, J. J. Murphy transportation, Lloyd Jones grounds.

A committee left Wednesday night for Detroit to make further arrangements for the reception of the immense crowd expected to make the trip. The price of tickets will be announced later. The Brainerd Municipal band and a local orchestra will probably accompany the picnic party. 2,000 shopmen and their families visited Bemidji on the occasion of last year's picnic.

Those desiring to bid on concessions should see G. J. Kroes, 309 South Broadway or telephone 301-L.

ATTRACTED TO STATE

C. E. Wheeler of Cedar Rapids, Iowa, Has Bought Nye Property on Round Lake Near Nichols

C. E. Wheeler of Cedar Rapids, Iowa has purchased the estate of John W. Nye, deceased, the Nye property located on Round Lake near Nichols, in Aitkin county, where he will live in the future except during extreme cold weather.

He is a lawyer and has been attorney at Cedar Rapids for many years for the C. & N. W. railroad company, the Douglas company, the Quaker Oats company, and other large corporations. He has retired from the practice and because of the beauties of Northern Minnesota and its opportunities for fishing and hunting, will make this his home.

He is very fond of all kinds of live stock and will bring with him and breed a few very fine registered bench show type Alredale terrier dogs and registered Jersey Duroc hogs.

Fred Nichols of Nichols has been putting the Nye property in fine shape for occupancy by Mr. Wheeler.

Reilly-O'Brien

Miss Mayme F. Reilly, sister of Mrs. H. P. Dunn, was married Wednesday morning at 8 o'clock at St. Francis Catholic church to Harry O'Brien, son of Mr. and Mrs. P. D. O'Brien.

The bride wore a fawn colored tricot traveling suit and French sailor hat. The attendants at the wedding were Postmaster and Mrs. H. P. Dunn. The wedding was quiet and simple and after the ceremony a wedding breakfast was served at the home of Mr. and Mrs. Dunn.

The newlyweds left by car for Ft. Ripley from which point they took the train for the Twin Cities. They will be at home after June 15 in apartments in the Reilly block formerly occupied by Mr. and Mrs. George W. Moody.

The bride is a charming girl with a wide acquaintance in the city. The bridegroom travels for the Van Paper Supply Co.

Their many friends extend them best wishes for their continued happiness and prosperity.

Christian Endeavor Society

Edward and Ernest Crust grandly entertained the members of the Christian Endeavor society of the Peoples' Congregational church at their cozy home on Wednesday evening. All the young people are ever glad to be invited to this home, and this was the "best time ever." There was lots of music, ice cream and cake were served and all hope to meet many times with the Twins who always help so loyally in the Christian Endeavor work.

Benefit Association

The Women's Benefit Association of the Macabees will have a meeting at the home of Mrs. Chas. Stadbauer, 410 South Sixth St. on Friday afternoon at three o'clock.

Mrs. Amy Tobie, District Deputy of the Association, will meet with the ladies and plans will be made for a membership drive. It is to be hoped that as many members as possible will arrange to attend this gathering.

BASEBALL DATES OF THE BRAINERD TEAM

Brainerd to Play at Anoka Sunday, June 13—No Home Game at Brainerd That Day

LITTLE FALLS SCHEDULE GIVEN

Agreement to Play at Brainerd on July 4th and at Little Falls on July 5th

Business Manager I. C. Strout of the Brainerd baseball team has announced these dates for games: June 13, Brainerd at Anoka. June 20, Brainerd vs. South St. Paul at a Twin City park. Correspondence still being carried on for this game.

July 4, Little Falls at Brainerd, afternoon game.

July 5, Brainerd at Little Falls, afternoon game.

LAND CLEARING SPECIAL COMING

Interesting Meeting of Land Clearing, Farmers and Business Men at Chamber of Commerce

NIGHT CONTROL HERE FRIDAY

Meeting is of Such Importance as to Command Interest and Large Attendance

(By Secretary Chamber Commerce)

The land clearing special which is putting on a demonstration Friday at Pequot, has made Brainerd their night control, and will hold a very interesting meeting for the business men at the Chamber of Commerce at 8 o'clock Friday evening. In a letter to E. G. Roth, County Agent, H. W. Beverly who is in charge of the land clearing tour, states they have a very interesting program arranged. Mr. Benz, a noted agricultural man, will be one of the speakers, and the message they bring will especially interest every Brainerd business man. Mr. Beverly asked that the wives of the business men be especially invited, as the subjects to be discussed are of interest to the ladies as well.

Now when the St. Paul boosters were in Brainerd and held a meeting especially for the business men only, a very few turned out, which was certainly a discredit to Brainerd. Those who were absent from this meeting, missed some mighty fine things. It is hoped by those in charge of the meeting of tomorrow evening that the Brainerd business men will take a keener interest this time, and turn out in force. A number of the farmers will attend, and this gives the merchant a chance to get into closer touch with the farmer trade; something that should be practiced more by local business houses.

So remember this meeting tomorrow night. Attend by all means, and get your share of the good things which are going the rounds, and also show Mr. Farmer that you are interested in him too. Give this meeting the attention and the attendance that it deserves.

Juline-Peterson

On Tuesday evening, June 8th, a very pretty wedding was solemnized at the home of the bride's parents, Mr. and Mrs. Gust Juline when their daughter Hazel A. was united in marriage to Bert T. Peterson, son of Mr. and Mrs. A. M. Peterson, by Rev. P. A. Peterson.

The bridal couple entered to the strains of the wedding march played by Miss Ethel Madsen. They were married before an altar of ferns and lilacs. The bride was attended by Mrs. E. W. McCulloch, a sister of the groom, and the groom by Mr. E. W. McCulloch.

The bride was becomingly attired in white satin and georgette and wore a corsage bouquet of bride's roses and white sweet peas. The bridesmaid wore white satin and georgette with a corsage of pink sweetpeas. Following the ceremony Mrs. McCulloch and Miss Jennie Beck sang "I Love You Truly." A delicious luncheon was served.

The home was beautifully decorated in white and lavender streamers and sprays of ferns and lilacs. They were the recipients of many pretty and valuable presents. They left for an extended wedding trip in North Dakota.

BASEBALL BUNTS

Bemidji will meet Grand Forks at Bemidji Sunday, June 13. They will also play Crosby, Brainerd, McIntosh, International Falls and Fergus Falls.

Crosby has cancelled its game with Wadena for Sunday, June 13, and will play the Clyde Iron Works of Duluth at Crosby. Brainerd tried to get the date but was unable to close with Crosby.

CITIZENS CAN AID IN DILEMMA

C. H. Paine Said He Will Be One of Fifty to Take \$1000 of City's Paving Bonds

NOW IS THE TIME FOR ACTION

Work of Putting Through the Paving Project Rests Upon Public Spirit of Its Citizens

"I will be one of fifty men, to take \$1,000 of the cities bonds and certificates of indebtedness to insure the contemplated street improvement," said C. H. Paine in discussing the needs of the city and the present bond market.

The members of the finance committee of the city council state that this is the only thing that they can see can be done to insure the paying proposition this summer. And furthermore they state that other public spirited citizens must come forward at once if it is to be accomplished as an answer must be given the contractors in a very few days.

Mr. Paine has set a pace which every user of our streets should carefully consider taking. No solicitations are being made. The work now rests upon the public spirit of the individual citizen who has some money he wishes to invest in a very safe investment free from taxes and bearing a reasonable rate of interest. All the banks are listing the subscriptions.

One of the banks will take 40% of the entire lot. The other banks will give the committee a definite answer in a few days as to the amounts they will take.

In the meantime it is suggested that all interested in Brainerd and its main arterial streets take a ride over Oak, Kingwood and Kindred and then stop at their bank and make their subscription for the cities paper. "It is not doubted that the citizens lack interest, it is that they are slow in action," said an alderman who believes that this plan will come through.

Harry Sanger

Harry Sanger, former Brainerd man, is general agent for the Price Exposition show. Sanger is his theatrical name, Percy being his regular cognomen. Since he left Brainerd he has been in England and the continent and later throughout the United States, since which time he has been known as the dean of carnival agents.

Being back in his own town for the first time in years, Mr. Sanger wanted to be certain that whatever attraction he was employed by, would be the kind of a show which would take well with his people here and the Frisco Exposition shows are in a class by themselves, up to the highest standard and endorsed by press and Shrine and Moose lodges, etc.

Fireside Club

The Fireside Club of the Norwegian-Danish Lutheran church will be entertained at the home of Miss Mary Peterson 1407 Oak St., S. E., Friday evening. Everybody is welcome.

Missionary Circle

The Woman's Missionary Circle will meet Friday afternoon at the home of Mrs. Swanson corner of West Bluff Ave. and Kingwood street. A large attendance is desired.

Time Is Money.

"Charley, dear," said young Mrs. Tomkins, "I'm going to read poetry after this." "What for?" "It saves so much time. There are so many open spaces in poetry that the time required to read a page is materially shortened."

No Mustache for British Tar. A blue jacket in the British navy is not permitted to cultivate a mustache if he attempts it he is fined a month's pay.

IT PAYS TO ADVERTISE—TRY IT

AUTO TRADE TOUR TO PEQUOT FRIDAY

Business Men of City Plan to Drive to Sister City, Leaving at 10 in the Morning

100 CARS ARE NEEDED FOR TRIP

Program at Pequot Begins Early and Brainerd Contingent Can Be Home by 4 P. M.

(By Secretary Chamber Commerce)

At the meeting of the Chamber of Commerce last evening, it was planned that with the weather permitting an auto trade tour would be made to Pequot Friday morning. It will be remembered that a big land clearing demonstration is scheduled for this sister city tomorrow, and farmers from all over the county will be in attendance. Business men from near by towns are going to be represented, so that it is to the interests of Brainerd to turn out also. This auto tour will leave the Iron Exchange building promptly at 9 o'clock, going direct to Pequot, making close connections with their program which is scheduled at 10 a. m.

The trade tour committee is anxious to make this a really big thing, at least 100 cars will be needed, if Brainerd is to make the showing which she should make. Every business house ought to be represented in this tour. L. W. Sheridan is chairman in charge of this program. Get in touch with him or the secretary of the Chamber of Commerce as to how many will be going from your establishment.

The program at Pequot will be over early in the afternoon, so that the Brainerd contingent can be home by 1:20 or 4 o'clock, in ample time to receive the trade tour officials who are making this city their night control, and stage a big program at the Chamber of Commerce Friday night. Don't sit back and expect some one else to make this a success. Do your share to swell the numbers in the auto tour. Be in front of the Iron Exchange building with your car, and as many friends as you can carry tomorrow morning at 9 o'clock.

IRONTON

Ironton, Minn., June 9.—P. J. Long has filed for re-election as representative of Crow Wing county.

Miss Adeline Markwardt, daughter of Mr. and Mrs. Fred Markwardt, and Buford McKelvey Grey were married Thursday evening at the home of the bride's parents, Rev. O. Olson of Deerwood officiating.

The American Legion celebration on May 31 was a great success. Never has such a large crowd gathered in the village. J. F. McPartlin of International Falls delivered the address of the day. The Federated Eilers showed every stunt known in aviation. The Brainerd municipal band played under the direction of Wm. F. Palmer. Two concerts were given, one at 1:30 in the afternoon and one at 7:30 o'clock. Witham's orchestra of Brainerd furnished the music for the dance. The celebration was the first annual one of the post.

Mary Caroline, infant daughter of Mr. and Mrs. Theodore Grinstead, was buried Tuesday morning.

Theodore Grinstead and L. O. Paulson have removed to Brantstad, Wisconsin, where they will conduct a mercantile business.

**Jump from Bed
in Morning and
Drink Hot Water**

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-checked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

SQUEEGEE TREAD TIRES

WILL GO OVER OLD ROUTE

Charles J. Morse of Lowell, Mass., Plans to Revisit the Historic Santa Fe Trail.

"I'm going over the old Santa Fe trail once more," said Charles J. Morse, former municipal commissioner, as he made the rounds of his friends preparatory to starting for his visit to the West, the Lowell Courier-Citizen states:

Mr. Morse had desired to leave some time ago and he looks forward to covering the whole 1,400 miles of way between St. Louis, Mo., and Santa Fe, N. M.

It won't be covered now as it was in 1872, when Mr. Morse, then a young man went over the famous southwestern trail on the back of a fine little piece of horseflesh. Times have changed and nowhere more than in that section of the country.

"In those days," he says, "Cody and Wild Bill had been securing the plains to the north and the West was pretty wild. At that particular time Buffalo Bill (Cody) and Wild Bill were in the eastern part of the country. Even then they had a wild west show."

"Eleven years ago I was in Denver, and at that time I met just one man whom I had known in 1872. There probably isn't a soul along the old trail now that I knew then."

"In 1872 the Apaches under old Geronimo were raising rumpuses every now and then. They were bad Indians; quick as lightning and they had first rate leadership. Up around Denver were the Utes, who were peaceful, and farther over were the Hois, who were also on good terms with the whites. But in 1872 when a Wells Fargo coach went out, there were always men with shotguns guarding it, and it wasn't an infrequent thing to have a holdup. I always felt that the vigilantes of those days were as bad men as were the robbers."

"I want to cover that old trail again. If I can't do anything else I can imagine things as they used to be and compare them with things as they now are. I was young then. I could stay in the saddle all day long. I loved a good bit of horseflesh then and I've never got over it. Of course, there will be cowboys and Indians and all that, but they won't be the hard, tough-as-nails men they were in 1872. That was a pretty rough country then."

Mr. Morse intends to take about three months for his trip. He is making it alone.

BABE RUTH EXPLAINING TO MRS. BABE HOW HE MADE THREE HOME RUNS IN ONE AFTERNOON

This photograph of Babe Ruth and his wife was taken just after the double-header in which the Yankees' star batsman made three home runs. He is explaining to Mrs. Ruth just how his bat connects with the ball. Mrs. Babe, by the way, does not call her husband "Babe." The reason she doesn't call him "Babe" is that he doesn't like her to use the term. He says it's all right for the other players and the fans to "Babe" him but he'd rather have her "Honey" him.

Influence of Art.

Jud Tinkins says the moving pictures have shown so many different phases of life that he can't get a man to be a corn who doesn't put on airs like an actor.

Exclusively American.

The production of maple sugar and maple sirup is purely an American industry, Canada being the only country other than the United States where they are made.

Making the Desert.
An ingenious method which a thoughtful wife invented to keep her good man cool is described in Travel. She sent down from town "a quantity of canvas or burlap, which was to be strung on wires along the windward side of the veranda. The poor, panting man was to take his seat there, lightly arrayed, and spray water on the screen with a hose. The resulting evaporation would temper the breeze to a fair degree of comfort." The burlap-and-hose combination, it seems, presents a prominent part in California desert household economy.

Let's Do It Here.
In Finland, lawyers, before they can secure government employment, must serve as policemen for the purpose of gaining some practical experience.
